PURITY OF DESIGN

AFRICA TWIN is back and, as to the first version 30 years ago that dominated the "Dakar", it is ready to challenge the most difficult off roads as well as to the ordinary roads in total safety. A motorbike with an adventurous spirit to which HP CORSE has dedicated its latest creations, the **4-TRACK** and **SPS CARBON** exhausts, born in the folds of the "Motor Valley" where quality and design meet and work can transform passion into absolutely special artworks. **4-TRACK** and **SPS CARBON** Exhausts loves the thrill of the great spaces and the streets that are lost beyond the horizon. Tested for more than over a year at the dydo test and in the most demanding situations, **4-TRACK** and **SPS CARBON** guarantee reliability and gives the AfricaTwin a slimmer rear profile that improves its dynamic performance while also the engine gains in particular at low and medium regimes. **4-TRACK** and **SPS CARBON** are light, have an octagonal shape bottom, a hydroformed end-cap without welding or carbon fiber and a laser engraved HP CORSE logo. Available in tre different materials: Titanium, Satin Steel and Black Steel .

WEIGHT

Original: kg. 4,8
stainless: kg. 3,850
titanium: kg. 3,400

SOUND

Original: dB 93 at 3750 rpm
DBK: dB 95
NO DBK db 99

POWER

Original: CV 92,98
4-TRACK/SPS CARBON: CV 93,71
