PURITY OF DESIGN

*KTM is a "politically incorrect" brand, a brand that has in its DNA the wickedness of those who love wild adventures but also the wisdom of those who know how to face and overcome all obstacles! Not just any motorbike, not a motorbike for anyone ... With the **ADVENTURE 1090** and **SUPERADVENTURE 1290** (and with the previous versions "**1190**" and "**1050**") the Austrian company has always reached the state of the art among the Maxi Enduro, bikes made to devour miles and never stop, done by using all the experience accumulated over the years with the many victories in rallies around the world. A bike with an overwhelming and unpredictable nature like these, HP CORSE dedicates its strongest and most powerful exhausts, the latest born of the Bolognese house, thought in the land of engines, inspired by the passion. The new exhausts are able to withstand the most demanding situations and the many miles travelled to accompany the motorcyclists through the roads and paths, mountain passes or deserts. Tested for over a year on the dyno-test and on the most demanding routes, the new HP Corse exhausts guarantee great reliability, a low weight compared to the original KTM and improves the performance of the already very powerful Mattighofen engines, especially at low and medium regime.*

Codice prova: KTM 1290 ADV HP STD

Range di prova [Rpm]: 3000-9610

Potenza Max. [CV]: 154.47 [Rpm]: 8778

K corr. (95/1/CE) : 0.894

Temp. amb. [°C]: 18

Press. atm. [mBar]: 1090

Data: 20/12/2017 16.33.00

Coppia Max. [Kg-m]: 14.62 [Rpm]: 6702
