TITANIUM –BLACK- INOX**

**4-TRACK TITANIUM/CERAMIC BLACK/INOX**

- Hydroforming Technology
- Carbon-fiber cover
- Slip-on Link pipe
- Laser Logo
- Homologated Euro 4
- (UE) nr. 134/2014 and 2016/1824 G

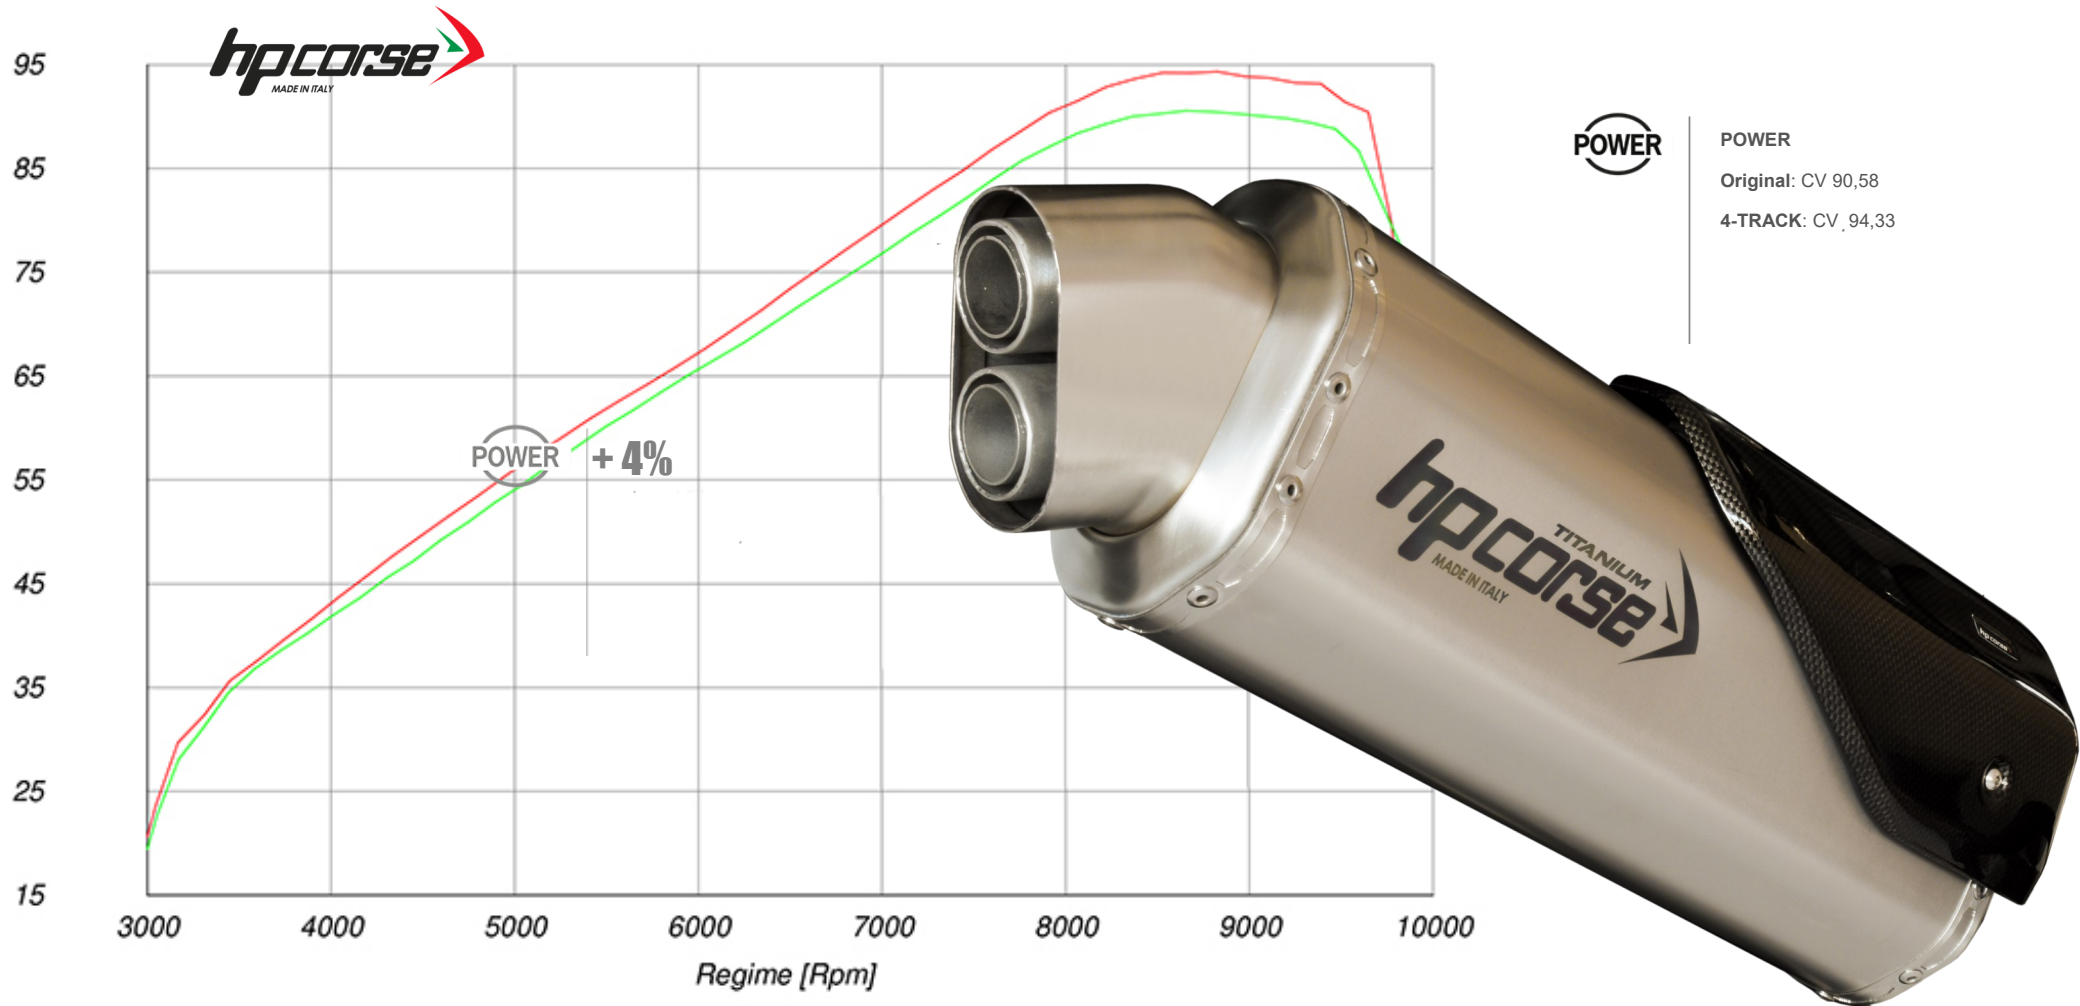

**TITANIUM Code: TR4T800T-AB**  
**CERAMIC BLACK Code: TR4T800C-AB**  
**INOX Code: TR4T800S-AB**

## Purity of design

The new TIGER 800 is probably the most daring "adventure" ever built by Triumph. Thanks to the new generation three-cylinder engine, to an extremely reactive power supply and optimized ergonomics, it guarantees excellent performance both on the road and off-road with surprising acceleration on any type of ground. To further enhance the heart of the beautiful TIGER 800, HP CORSE has dedicated its strongest and most powerful exhaust, conceived in the land of engines, inspired by passion: 4-TRACK.

The new 4-TRACK is available in three different materials and it is able like no other to redesign the back area, enhancing its aesthetic characteristics, agility and sound. Dedicated more generally to Sport Touring / Adventure, Maxi Enduro and Crossover, the new 4-TRACK exhaust system is born to do many kilometers and withstand the most demanding situations to accompany the new riders through the roads and the paths, the mountain passes or the deserts. Tested for a long time on the bench and on the road, 4-TRACK guarantees solidity and reliability, a reduced weight compared to the original Triumph exhaust system as well as improving the performance of the English three-cylinder engine, particularly at medium and high speed.
