ENG

4-TRACK S 350, the newest addition to Hp Corse exhaust systems lineup, comes from the experience gained over many years of road and off road testing. This fully integrated, tried and tested solution has been designed to offer the most demanding riders an efficient and extremely reliable product, street legal and fully compliant with current legislation.

4-TRACK S 350 retains just the outer sleeve shape of its predecessor "R" redesigned internal components, and a wider 62 mm exit nozzle with a 40 mm reduction are just some of the elements that characterize the proof of HP CORSE's continuous search for new solutions.

The muffler outer sleeve has an octagonal section, available in stainless satin or black ceramic finishing.

The exhaust is equipped with a carbon fiber heat shield featuring an HP CORSE resin coated sticker.

Laser engraved logo on the outer muffler sleeve and type approval number on the inner side complete the product.

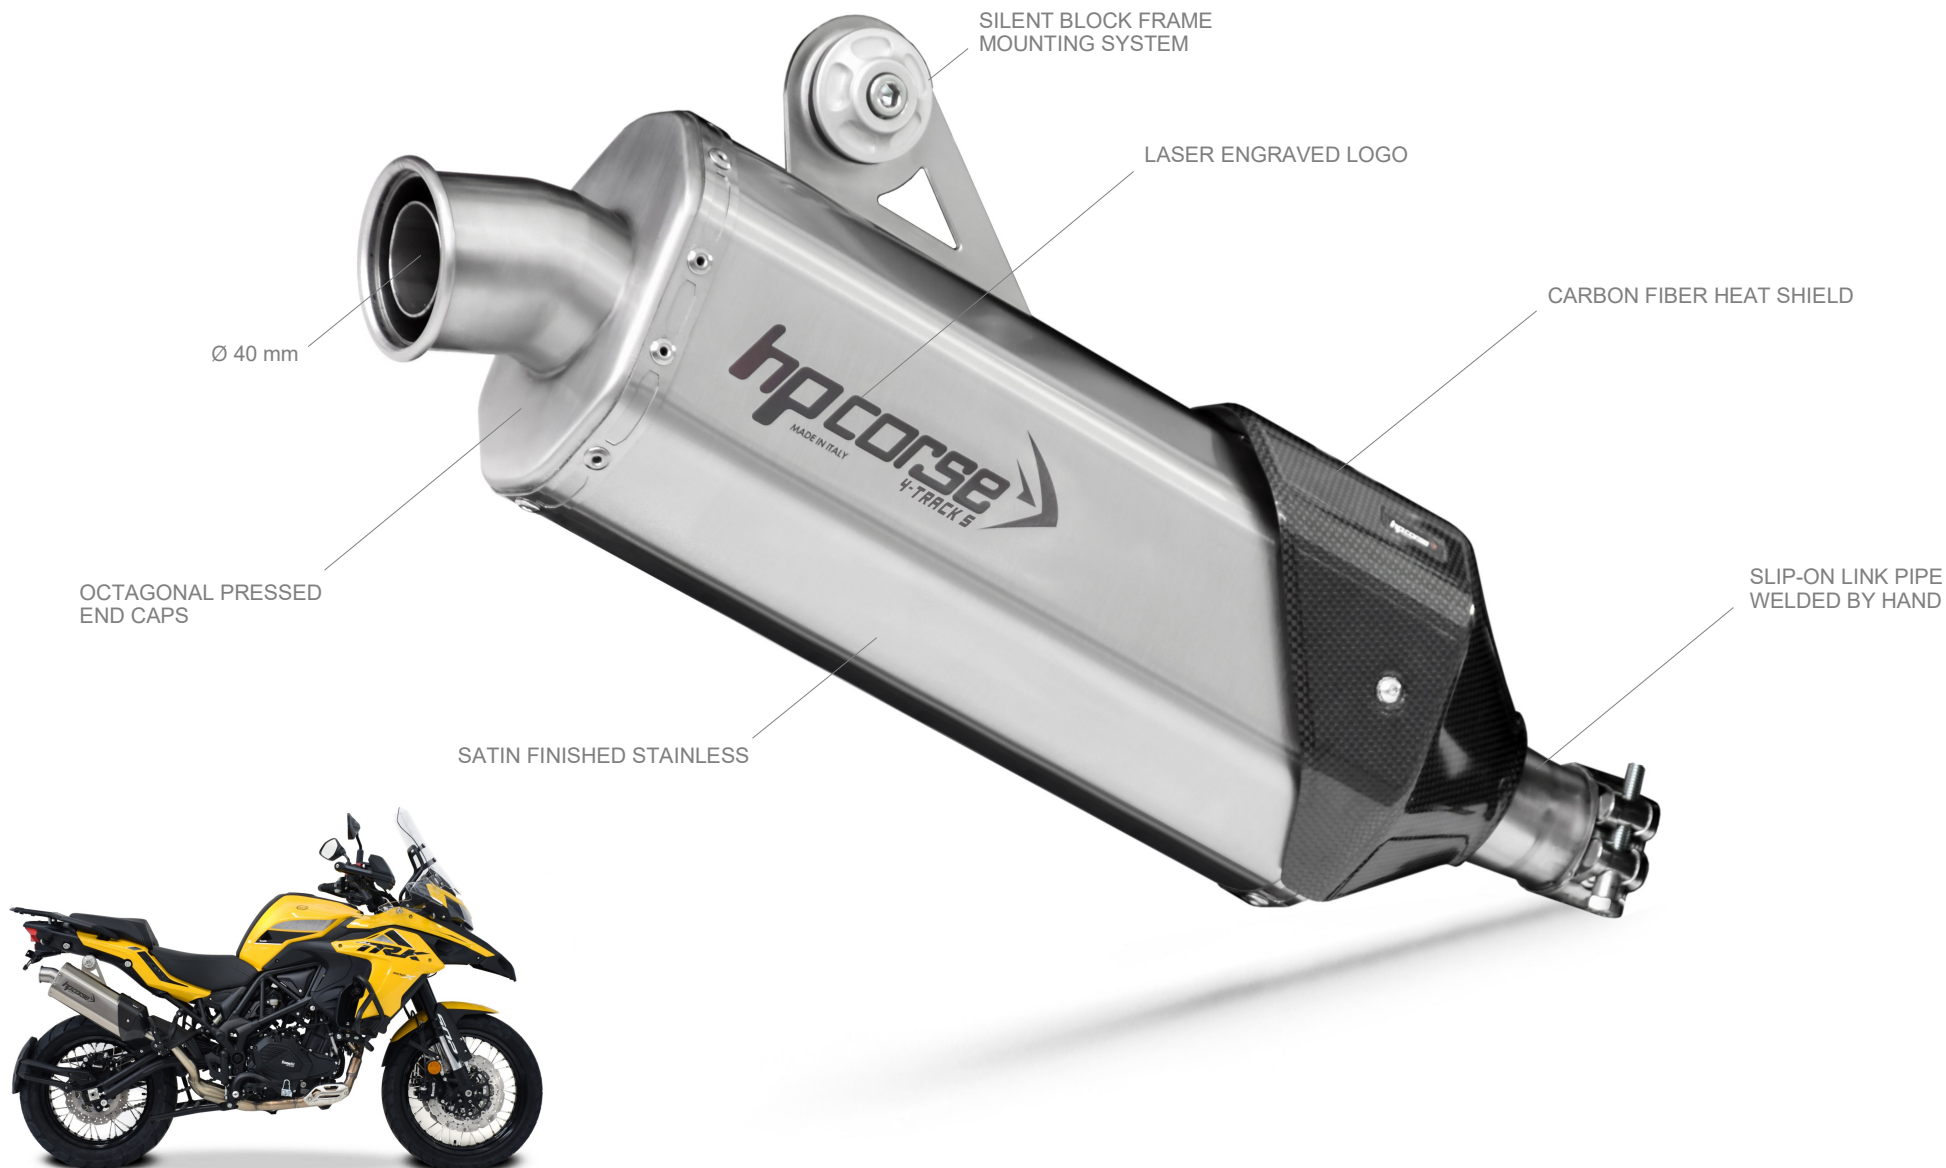

A desert landscape at sunset with sand dunes and a stylized logo. The sun is low on the horizon, casting a warm orange glow over the scene. The sand dunes are in the foreground and middle ground, with a large, semi-transparent logo overlaid on them. The logo consists of the word 'MPCORSE' in a bold, italicized, sans-serif font, with 'MADE IN ITALY' in a smaller font below it. To the right of the text is a stylized arrow graphic pointing right, colored red and green. The background is a clear sky with a few wispy clouds.
