ROYAL ENFIELD Himalayan

ENG

If you suffer from rally fever, let this exhaust heal your adventurous soul.

Inspired by the legendary Dakarian rally raids, engineered in the heart of the Motor Valley having in mind the African grueling dunes and sandstorms, SP-1 reinterprets its glorious roots with a modern approach.

HP Corse knows what's what and never fails to challenge, surprise and excite.

SP-1 is the happy medium between aesthetics and functionalism. On one hand the minimalist appearance convey a sense of sobriety and modernity, on the other cutting-edge technology and premium quality materials offer reliability and undisputed power.

With SP-1, refined minimalism and performance are now two sides of the same coin, subliming the riding experience and awakening the thirst for adventure of those who keep pushing the limits in search of boundless freedom.

Oval shaped and ultra light, the Hp Corse SP-1 slip on features a low-thickness titanium or stainless body. Both the short version (300 mm) and standard length (350 mm) allow to save every gram of weight possible making this appliance the lightest in its class.

The single exit spout with a generous diameter, synonym of a glorious aural experience, is equipped with a removable db killer.

This trusted companion both on tarmac or along dirty roads is an avid explorer - the reinforced mounting brackets are TIG hand-welded as well as all the titanium and AISI 304 stainless steel parts. The insert bushes are CNC machined from solid to guarantee impeccable couplings. SP-1 encloses everything is required for a solid and perfect assembly.

Hp Corse SP-1 Slip-On muffler is available in natural titanium, satinated steel and mat black steel both refined with Hp Corse laser-marked logo.

A desert landscape at sunset with sand dunes and a stylized logo. The sun is low on the horizon, casting a warm orange glow over the scene. The sand dunes are in the foreground and middle ground, with a large, semi-transparent logo overlaid on them. The logo consists of the word "MPCORSE" in a bold, italicized, sans-serif font, with "MADE IN ITALY" in a smaller font below it. To the right of the text is a stylized arrow graphic pointing right, colored red and green. The background is a clear sky with a few wispy clouds.

Less is more, the art of simplicity as ultimate expression of sophistication. A minimalistic yet modern approach for a new breed of exhausts with a no-frills look ready to unleash its true essence. Because the very essence of things lays in simplicity. Inspired by the great African rallies and their myth, the new SP-1 has been masterminded in the heart of the Motor Valley and reinterprets the past in order to shape the future. An ultra lightweight oval-shaped exhaust featuring a minimal round shaped and non welded nozzle which perfectly fits the latest off-road motorcycles. Sturdy in shape and soul, SP-1 comes with a full titanium or stainless body, slip on system and removable db killer. The exhaust features TIG handwelded mounting brackets, a machined by solid inlet and HP Corse laser engraved logo. Engineered to be the strongest, SP-1 has been extensively tested at the test bench and on the most demanding tracks. Available in one lengths, 300 mm, according to desired mounting position.
