**SP-1** represents minimalism and attitude in its purest form. A lightweight oval shaped muffler with a weldless tip, forged with the purpose of removing any redundant feature and designed to revamp Tuareg 660's back.

Engineered to meet everybody's need, from heavy off-road riding to everyday traffic adventures, SP-1 is ready to withstand any adversity. Its titanium canister, hand welded mounting bracket, and signature HP CORSE logo laser make him a trustworthy partner on the asphalt and on dirt road too. Extensively dyno and road tested, **SP-1** is available in the frosted titanium variant or black coated with ceramic treatment.
