■ SPS RALLY 270 TITANIUM

HP CORSE releases its trifecta for the new BMW R 1300 GS, an exhaust range distinguished by a unique and unmistakable design, boasting a spirit personality, aggressive but at the same time elegant as shown by the premium **outlet metal grid** and the ultimate elegant finishing. Evolution and revolution within everyone's reach.

The exhausts come in **two lengths: 270 mm for the SPS and 4-TRACK RALLY range (titanium sleeve)** and **350 mm for the 4-TRACK S (available in stainless steel)**. With this compact and proportionate shape in addition to that adds to the peculiar conformation of the internal expansion chamber, **HP Corse's exhaust range gives an intense sound experience**, with a **more deep and full-bodied sound** than the stock muffler.

The design, sophisticated and attractive, unquestionably plays a big role in the new line-up: **SPS RALLY features a glossy carbon fiber end cap** whereas **4-TRACK RALLY is equipped with an oval hydroforming exit nozzle**. Both lines share a **protective metal grid** that allows a glimpse of the **dual exhaust gas outlet**.

4-TRACK S RALLY, on the other hand, with its **fully open and round tip**, reinterprets the rally vibes in a contemporary key.

All silencers come with a **carbon fiber heat shield** to improve aerodynamics and to protect from the heat – safety and driving comfort are never compromised.

HP Corse is a proudly Italian company which has always been synonymous with exquisite craftsmanship, **attention to details** throughout the whole production process, and always one step ahead when it comes to design: the finishing, weldings of great refinement realized by the expert hands of the welders and the hand-finishing carried out with artisan passion are evidence of this.

HP Corse exhausts guarantee a better outflow of gases if compared to OEM silencer, with the promise of giving more power, torque and fast throttle response.

Of course all the power and driving fun is in **full compliance with UE homologation standards (Euro 5 plus)**

HP Corse **laser-engraved logo**: a guarantee of **100% Made In Italy** passion and quality.

NOTE:

Assembly instructions included
Type approval certificate included
Euro 5 plus approval
ECU tuning not required
Plug-and-play installation
Compatible with BMW sidecases
Compatible with BMW passenger pegs
Compatible with BMW central stand
