

MADE IN ITALY

hpcorse
MADE IN ITALY

For the latest creation and maximum technological expression of INDIAN®, HP CORSE has created a modular exhaust system consisting of the following parts:

1. **HP CORSE HYDROFORM-SHORT SILENCERS + HP CORSE 1 INTO 2 LINK-PIPE + CARBON COVER**
2. **HP CORSE CAT ELIMINATOR LINK-PIPE**
3. **POWER VISION® 3** by Dynojet®

HP CORSE HYDROFORM-SHORT SILENCERS obtained by hydroforming technology are approved euro 4 with dbk and laser engraved logos.

The **HP CORSE 1 IN 2 SLIP-ON LINK PIPE** is hand-welded with a beautiful carbon cover which partially embraces it, guiding the eye to the two lovely superimposed **HYDROFORM-SHORT**.

The **HP CORSE CAT ELIMINATOR LINK-PIPE** is a work of art composed of 25 pieces handwelded together. Its function is to replace the standard catalyst for an even more powerful engine with uncontainable torque.

We can say with great satisfaction that the HP CORSE exhaust system completely changes the rear part of the FTR®, making it aggressive and even more iconic for an absolutely unique styling layout.
