Welcome **SPS CARBON**, the new HP Corse exhaust dedicated to Pan America™ 1250 and Pan America™ 1250 Special models. Designed to explore new paths that stretch behind the horizon, the octagonal exhaust system has been engineered to maintain the original carbon fiber heat shield. Thanks to the **EP LINK PIPE**, the Silencers can be mounted excluding the pre-silencer. The carbon-fibre outlet internally wraps an amazing ovoidal hydroformed spout featuring a rounded dual gas output and removable dbkillers. Our silencer body is proposed in two versions: titanium or stainless steel with black ceramic treatment. Laser engraved HP Corse logo. The exhaust system is Euro 5 Type-approved under Directive 134/2014/CE and 2018/295/CE.
