SPS CARBON LINE

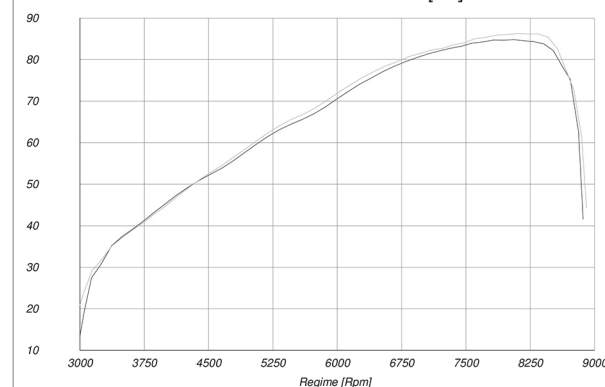

PURITY OF DESIGN

To the brand new F 850, GS HP CORSE has dedicated the new exhaust line (4-TRACK R and SPS CARBON) that can embody the ON/OFF spirit of the Bavarian creature like no other. Tested on the dyno test and on the Italian and European roads, guarantees reliability and gives to the BMW F 850 GS sophisticated back lines and attention to details while the powerful twin-cylinder engine also gains in particular at low and medium engine speeds. The new exhausts have a laser engraved logo, a silencer body available in three different materials (Titanium, Satinized Steel, Black Steel) with octagonal shaped bottom and hydroformed spout without welding. Euro 4 approved, are equipped with a carbon heat shield that covers the part towards the silencer body fitting.
